Jaime Sued

Setauket, NY 11733 | jaime.sued@stonybrook.edu | 305-873-7002

EDUCATION

Stony Brook University — Stony Brook, NY
M.S. in Quantitative Finance. — *Expected May 2028*
Relevant Coursework: Time Series Analysis, Foundations of Quantitative Finance

Syracuse University — Syracuse, NY
M.S. in Computer Science. GPA: 3.41/4.00. — *May 2026*
Relevant Coursework: Stochastic Processes, Probability & Statistics I, Numerical Linear Algebra, Real Analysis I (audited), Causal Inference

Syracuse University — Syracuse, NY
B.S. in Aerospace Engineering, Minor in Computer Science. GPA: 3.40/4.00. — *May 2024*

EXPERIENCE

Engineering Intern, Probabilistic Risk Assessment — May 2026 – August 2026
Bastion Technologies — *Huntsville, AL*

- Applied Bayesian inference, fault tree analysis, common-cause failure analysis, and reliability engineering methods to mission risk assessment.
- Developed a Markov-chain tool in MATLAB to analyze mission simulations, producing reliability metrics including Mean Time to Failure and Mean Time to Repair beyond sample probabilities.
- Conducted statistical analyses of global spaceflight activity in R over four years, covering mission failure rates, country-level trends, and forecasting of future launch activity.

Research Assistant — August 2024 – May 2025
Engineering and Computer Science Dept., Syracuse University — *Syracuse, NY*

- Implemented an Extended Kalman Filter for adaptive radar scheduling and target tracking.
- Built a simulated radar environment in Python for radar system testing.
- Adapted an expected information gain metric for a radar scheduling algorithm to improve target tracking and scanning utility.

Lab Assistant — June 2022 – August 2023
LHCb High Energy Physics Group, Syracuse University — *Syracuse, NY*

- Fabricated and maintained staves serving as sensor frames for shipment to CERN in Switzerland.
- Co-developed a projectile motion simulation for calculating energy from secondary emissions.

SKILLS

Programming: Python, R, MATLAB, C (learning)

Languages: English (native), Spanish (native)

RESEARCH INTERESTS

- Statistical Inference, Stochastic Processes, Causal Inference, Decision-Making Under Uncertainty, Information Theory
